

Institutional Distinctiveness

The Institution has always tried to ensure, that academic excellence goes along with social responsibility. Apart from classroom teaching the institution believes that the students must be exposed to different ideas through which they can develop their own perceptions about things. Keeping this in mind the institution organises a national conference and state level workshop every year. This gives students an opportunity to interact with intellectuals in respective fields and also develops in them the skill of presenting their views through research papers. The objective of this activity is to increase the research aptitude of the students. The number of research centres in the institution also provides adequate exposure and opportunity to the students.

It also brings together the academic community on a common platform, enabling the teachers to explore new areas of research. Overall it develops a healthy and vibrant academic environment. Diverse outreach activities like Ek Mooth Dhanya, Chess Competition for the Blind, Voter Registration Drive, Blood Donation Camps and so on are organised to develop a social sensitivity among the future scholars. This aims at building a bridge between academics and society.
